## **RITA CORPORATION – OUR FIRM FOUNDATION**

Welcome to *RITA* Corporation;  
we are your source for specialty  
chemicals worldwide. For more  
than 50 years, *RITA* Corporation  
has earned the reputation as  
a leading supplier of specialty  
chemicals to the cosmetic and  
personal care industries. Because  
we are privately held and debt  
free, *RITA* Corporation answers to  
no one except our customers and  
our own conscience. Our unique  
position as a premier manufacturer  
and exclusive distributor allows  
us to successfully meet our  
customers' objectives and surpass  
their expectations. It is *RITA*'s  
commitment to our customer, our  
quest for progress and our vision  
that have guided us in the past and  
will continue to steer our course into  
the 21<sup>st</sup> century.

***Brian J. Goode, President***

## **COMMITMENT**

*RITA* is committed to providing unparalleled customer satisfaction. Anticipating the needs and questions of our customers is our top priority.

Each customer is the responsibility of a skilled Technical Sales Representative. Coupled with a Customer Service Representative, these two individuals form a team committed to assisting our customers, listening with a well trained ear to manage each sale through its successful completion. Open lines of communication between our customer and our sales support team ensures that the customer always has our full attention.

## **VISION**

*RITA* has the vision to grow its business by helping our customers to grow theirs. A worldwide sales and distribution network is at your service, ready to expedite needs as efficiently as possible. Represented by international agents on 6 continents, *RITA* holds exclusive distributorships with several premier agents. Our supply chain includes distribution warehouses in Illinois, New Jersey, Georgia, Texas and California. *RITA*'s state of the art corporate headquarters Northwest of Chicago include superior laboratory facilities which provide the utmost in resources and availability to all of our customers.

## **PROGRESS**

*RITA* is driven by a relentless quest for progress and innovation. Innovation begins in our Crystal Lake, Illinois laboratories. The search for marketable applications, new and/or diversified formulations is spearheaded by a staff of qualified, experienced research and development chemists assisted by our Marketing Department and Technical Sales Representatives. Together, these individuals deliver solutions personalized to the unique needs of each customer. From trouble shooting to concept development, *RITA* prides itself on meeting our customer's needs and exceeding our customer's expectations.

Our product catalogue represents not only superior quality chemicals but a vast worldwide network of suppliers, agents, distributorships and over 50 years of successful operation all built upon the needs of our customers.

## Lanolin

Lanolin is used as a stabilizer for emulsions, dispersions and suspensions. It is a moisturizer, lubricant and emollient compatible with a broad range of ingredients.

	Product	INCI Name	Appearance at 25° C	Standard Packaging
Lanolin	DEGRAS	Degras	Dark grease	419 lb drum
	LANOLIN (TECHNICAL GRADE)	Lanolin	Yellow grease	40 lb pail / 400 lb drum
	LANOLIN USP (COSMETIC GRADE)	Lanolin	Yellow grease	40 lb pail / 400 lb drum
	LANOLIN USP (EXTRA-DEODORIZED)	Lanolin	Yellow grease	40 lb pail / 400 lb drum
	LANOLIN USP (PHARMACEUTICAL GRADE)	Lanolin	Yellow grease	40 lb pail / 400 lb drum
	LANOLIN USP (PHARMACEUTICAL LIGHT)	Lanolin	Yellow grease	40 lb pail / 400 lb drum
	LANOLIN USP (OINTMENT GRADE)	Lanolin	Yellow grease	40 lb pail / 400 lb drum

## Lanolin Derivatives

RITA carries a broad range of ethoxylated, hydrogenated and hydroxylated lanolins plus other lanolin fractions and their derivatives. These products are used as emulsifiers, emollients, conditioners, moisturizers, stabilizers and solubilizers in make-up, lipsticks, skin care products, bath products, shampoos, soaps, shave creams, ointments, sun preparations and veterinary products.

### Glycol, Glyceryl & PEG Esters

The RITA Glycol, Glyceryl and PEG Esters are excellent emulsifiers and emulsion stabilizers. These products are good emollients, pearlizers, opacifiers and viscosity builders in many systems.

Glycol, Glyceryl & PEG Esters	Product	INCI Name	Appearance at 25° C	Standard Packaging
	RITA EGDS	Glycol Distearate	Light cream flake	55 lb bag
	RITA EGMS	Glycol Stearate	Light waxy flake	55 lb bag
	RITA GMS 	Glyceryl Stearate	Off-white flakes or granules	55 lb bag
	RITA GMS P	Glyceryl Stearate	Off-white free-flowing powder	25 kg bag
	RITA GMS 90	Glyceryl Stearate	Off-white flakes or granules	50 lb carton
	RITASynt IP	Glycol Stearate, Stearamide AMP	White to cream flakes	55 lb bag

### Fatty Alcohols / Acids

The RITA Fatty Alcohols / Acids and Fatty Alcohol Blends are high purity materials that are used in cosmetic formulations for thickening, opacifying and conditioning.

Fatty Alcohols / Acids	Product	INCI Name	Appearance at 25° C	Standard Packaging
	12-HYDROXYSTEARIC ACID	Hydroxystearic Acid	Off-white flakes	50 lb bag
	RITA CA	Cetyl Alcohol	White waxy flake	55 lb bag
	RITA CETEARYL ALCOHOL 30/70	Cetearyl Alcohol	White to off-white flakes	55 lb bag
	RITA CETEARYL ALCOHOL 50/50	Cetearyl Alcohol	White to off-white flakes	55 lb bag
	RITA CETEARYL ALCOHOL 70/30	Cetearyl Alcohol	White to off-white flakes	55 lb bag
	RITA OA	Oleyl Alcohol	Semi-solid	375 lb drum
	RITA SA	Stearyl Alcohol	White flake	55 lb bag
	RITASTEARIC	Stearic Acid	White waxy flake	50 lb bag

### Paraffins

	PARAFFIN WAX 124/130	Paraffin	Off-white waxy solid	55 lb carton
	PARAFFIN WAX 127/135	Paraffin	Off-white waxy solid	55 lb carton
	PARAFFIN WAX 138/144	Paraffin	Off-white waxy solid	55 lb carton

## Flavinoids, Co-Enzymes, Amino Acids & Vitamins

These products are nutrients used in many hair and skin care applications as humectants and hair repair agents. Some of these products are good for soothing skin irritations, minor wounds, sun burn, insect bites and allergic reactions.

Flavinoids, Co-Enzymes, Amino Acids & Vitamins	Product	INCI Name	Appearance at 25° C	Standard Packaging
	AVIDERM ASCORBATE	Creatine, Ascorbic Acid	Fine white powder	1 kg
	RITA ALLANTOIN	Allantoin	Crystalline Powder	10 kg tin
	RITA GLYCINE USP	Glycine	White crystalline powder	10 kg pail
	RITA KA	Kojic Acid	Off-white powder	1 kg / 10 kg tin
	RITA SOD	Superoxide Dismutase	Light greenish blue powder	1 kg tin
	RITA VITAMIN E ACETATE	Tocopheryl Acetate	Clear yellow to greenish yellow viscous oil	18 kg pail / 200 kg drum
	RITAMECTANT PCA	Sodium PCA	Colorless liquid	40 lb pail / 441 lb drum
	RITAPAN D	Panthenol	Colorless, viscous liquid	20 kg bottle
	RITAPAN D 75%	Panthenol	Clear liquid	20 kg bottle
	RITAPAN DL USP	Panthenol	White to creamy powder	25 kg carton
	RITAPAN DL 50%	Panthenol	Clear and slightly yellowish liquid	18 kg pail / 200 kg drum
RITAPAN EE	Pantothenyl Ethyl Ether	Colorless to slightly yellow viscous liquid	20 kg bottle	
RITA Q10	Ubiquinone	Yellow to orange crystalline powder		

## Cationic Quaternary Compounds, Conditioning & Styling Aids

These products are excellent conditioners for both skin and hair. They are also used as anti-static agents and provide "slip" properties to many types of formulas. These products are good in shampoos, conditioners, body soaps, hair strengtheners, depilatory creams, hand lotions and soaps.

	Product	INCI Name	Appearance at 25° C	Standard Packaging
	RITA BTAC 228	Behentrimonium Chloride	White flakes	20 kg carton

RITAQUTA 7	Polyquaternium-7	Clear liquid	40 lb pail / 450 lb drum

### Emollient Esters

RITA offers a select range of emollients with excellent spreading and solubilizing properties for both cosmetics and pharmaceutical ingredients. These emollients improve rub-out of formulas as well as influence viscosity control and dispersion characteristics. They are ideal for use in creams, lotions, bath oils, lipstick and make-up.

<b>Product</b>	<b>INCI Name</b>	<b>Appearance at 25° C</b>	<b>Standard Packaging</b>

RITAMOLLIENT ININ	Isononyl Isononanoate	Water white, clear liquid	400 lb drum
RITAMOLLIENT ODDM	Octyldodecyl Myristate	Colorless liquid	175 kg drum
RITAMOLLIENT TN	C12-C15 Alkyl Benzoate	Colorless liquid	40 lb pail / 400 lb drum
RITAPHYL ICS	Isocetyl Stearate	Clear liquid	40 lb pail / 400 lb drum

### Polyoxyethylene Ethers & Esters

The Polyoxyethylene Ethers and Esters are non-ionic surfactants which are excellent emulsifiers. They can be used individually, or in combination with a variety of other hydrophobic emulsifiers to cover a wide range of oil in water and water in oil emulsions.

<b>Product</b>	<b>INCI Name</b>	<b>Appearance at 25° C</b>	<b>Standard Packaging</b>
RITABATE 20 (also available in kosher)	Polysorbate 20	Yellow liquid	40 lb pail / 485 lb drum
RITABATE 40	Polysorbate 40	Yellow liquid	40 lb pail / 490 lb drum
RITABATE 60 (also available in kosher)	Polysorbate 60	Yellow liquid	40 lb pail / 470 lb drum
RITABATE 80 (also available in kosher)	Polysorbate 80	Yellow liquid	40 lb pail / 490 lb drum

	RITOX 721	Steareth 21	White waxy flake or solid	55 lb bag / 220 lb drum

### Polyethylene Oxide Resins

PEO Resins are non-toxic, water soluble polymers, which provide lubricity to many formulations depending upon the concentration and grade used. These products are extremely mild and are excellent film formers and viscosity modifiers/rheology control agents. At high concentrations, PEO Resins can add adhesive properties to a product.

<b>Polyethylene Oxide Resins</b>	<b>Product</b>	<b>INCI Name</b>	<b>Appearance at 25° C</b>	<b>Standard Packaging</b>
	PEO 1	PEG-5M	White powder	20 kg carton
	PEO 18	PEG-90M	White powder	10 kg / 20 kg carton
	PEO 27	PEG-160M	White powder	10 kg carton

	RITA GLYCERIN	Glycerin	Clear viscous liquid	400 lb drum / Bulk
	RITA GLYCERIN KOSHER	Glycerin	Clear viscous liquid	570 lb drum
	RITA GLYCOL HG	Hexylene Glycol	Clear liquid	420 lb drum
	TEALAN 99% (not for export)	Triethanolamine	Viscous liquid, free of suspended matter	40 lb pail / 510 lb drum

## Ritacanes

The Ritacanes series are effective emollients, skin conditioning agents and excellent solvents which leave a very desirable silky after-feel on the skin and can be used as a replacement for mineral oil and for low viscosity dimethicones and cyclomethicones.

Product	INCI Name	Appearance at 25° C	Standard Packaging
RITACANE ID	Isododecane	Colorless liquid	35 lb pail / 331 lb drum
RITACANE IH	Isohexadecane	Colorless liquid	15 kg pail / 353 lb drum

## Ritadecene

The application for Ritadecene include: conditioners, emollients and gloss agents.

Product	INCI Name	Appearance at 25° C	Standard Packaging
RITADECENE 20	Hydrogenated Polydecene	Clear liquid	40 lb pail / 366 lb drum

## Carbomers & Gums

The RITA Carbomers are acrylic, stabilizing and gel forming polymers. Because of their thickening properties, they give formulations excellent body while retaining the ability to be stirred, pumped or spread easily.

Product	INCI Name	Appearance at 25° C	Standard Packaging
ACRITAMER 934	Carbomer	Fine, white powder	44 lb carton
ACRITAMER 940	Carbomer	Fine, white powder	44 lb carton
ACRITAMER 941	Carbomer	Fine, white powder	44 lb carton

ACRITAMER 2020	Acrylates/C10-30 Alkyl Acrylate Crosspolymer	Fine, white powder	44 lb carton
ACRITAMER LP-2	Acrylates Copolymer	White Liquid	200 kg drum

## Methyl Glucose Esters

The Methyl Glucose Esters are all natural products, which are great humectants that impart a smooth and silky feel on the skin. These products are used for their humectancy and moisturization in all skin care applications. Ritacam E-10 also enhances the foam properties of cleanser systems.

Product	INCI Name	Appearance at 25° C	Standard Packaging
RITACAM E-10	Methyl Gluceth-10	Pale yellow liquid	40 lb pail / 450 lb drum
RITACAM E-20	Methyl Gluceth-20	Pale yellow liquid	40 lb pail / 500 lb drum
RITACAM DOE 120	PEG-120 Methyl Glucose Dioleate	Yellowish or white waxy solid	25 kg pail
RITACAM SS	Methyl Glucose Sesquistearate	Pale yellow flakes	50 kg pail
RITACAM SSE 20	PEG-20 Methyl Glucose Sesquistearate	Yellowish paste	50 kg pail

## Methyl Esters

Product	INCI Name	Appearance at 25° C	Standard Packaging
FIL-ESTER 618 & 618K	Methyl Cocoate	Clear yellow liquid	
FIL-ESTER 810	C8-C10 Methyl Ester	Clear colorless liquid	
FIL-ESTER 1218	C12-C18 Methyl Esters	Clear yellow to light orange liquid	
FIL-ESTER 168	C16-C18 Methyl Ester	Clear yellow to light orange liquid	

## Acyl Lactylates, Lactates & Lactic Acid

The Acyl Lactylates are a group of anionic surfactants prepared from naturally occurring raw material. These unique compounds are excellent humectants, which demonstrate substantivity to proteins. They offer conditioning and repair damaged hair. The Lactates reduce tackiness in systems containing high concentrations of oils.

Product	INCI Name	Appearance at 25° C	Standard Packaging
PATIONIC 122A	Sodium Caproyl Lactylate	Clear viscous liquid	40 lb pail / 425 lb drum
PATIONIC 138C 	Sodium Lauroyl Lactylate	Waxy Solid	40 lb pail / 425 lb drum
PATIONIC CSL 	Calcium Stearoyl Lactylate	Light tan powder	50 lb carton
PATIONIC ISL 	Sodium Isostearoyl Lactylate	Straw to honey clear viscous liquid	40 lb pail / 425 lb drum
PATIONIC ISL 85%	Sodium Isostearoyl Lactylate, Propylene Glyco	Clear viscous liquid	40 lb pail / 400 lb drum

## Carrier Systems by ROVI

RITA Corporation is the exclusive sales agent for the ROVISOME and CERASOME product line manufactured by ROVI Cosmetics International GmbH. ROVISOMES are carrier systems that are used to encapsulate cosmetic actives, such as vitamins and various other unstable skin care substances and to deliver these actives into the deeper layers of the epidermis. CERASOMES are carrier systems based on glycosphingolipids with skinlike components (CERAMIDE-3) that are able to encapsulate and stabilize various actives. Contact your RITA sales representative for customized ROVISOMES or CERASOMES which can be developed exclusively for special applications.

### Amitose® by Seiwa Kasei

Amitose® is a moisturizer consisting of N-Glyceryl amino acids and shows superior moisturizing effect on both skin and hair.

Line	Product	INCI Name	Appearance at 25° C	Standard Packaging
Amitose®	Amitose R	Dihydroxypropyl Arginine HCl	Light yellow to brown liquid	18 kg carton

### Vistanol® by Seiwa Kasei

Vistanol is characterized by its remarkable stability over time with very low peroxide value as well as its highly superior skin tolerance.

Line	Product	INCI Name	Appearance at 25° C	Standard Packaging
Vistanol®	Vistanol GDHR	Glyceryl Diisostearate Hydrogenated Rosinate	Light yellow to amber, viscous liquid	20 kg can, 200 kg drum
	Vistanol NPGC	Neopentyl Glycol Dicaprate	Transparent liquid	20 kg can, 200 kg drum

### Matlube® by Seiwa Kasei

Matlube® is a low viscosity ester oil and enhances the softness and smoothness of skin. In formulation, it enhances spreadability and improves skin texture.

Line	Product	INCI Name	Appearance at 25° C	Standard Packaging
Matlube®	Matlube DIBA	Diisobutyl Adipate	Colorless to pale yellow, transparent oily liquid	15 kg can
	Matlube DISA	Diisostearyl Adipate	Colorless to pale yellow, transparent liquid	15 kg can
	Matlube II	Isopropyl Isostearate	Colorless to pale yellow, transparent liquid	15 kg can
	Matlube HI	Hexyldecyl Isostearate	Colorless to light yellow, transparent oily liquid	15 kg can

### Silasoma® ~ Microcapsules of Siliconized Hydrolyzed Protein by Seiwa Kasei

Silasoma® is a 60% a.m. water dispersion of microcapsules in which UV filters are contained. The microcapsules have high core material rate of 90% and an average particle size of 2 micro meters. Encapsulation of the UV filters improve texture and simplifying formulas.

Line	Product	INCI Name	Appearance at 25° C	Standard Packaging
Silasoma®	Silasoma ME*	Ethylhexyl Methoxycinnamate, Polysilicone-14, Butylene Glycol, Phenoxyethanol, Etidronic Acid	White to light yellow aqueous suspension	18 kg carton
	Silasoma MEA*	Ethylhexyl Methoxycinnamate, Butyl Methoxydibenzoylmethane, Polysilicone-14, Butylene Glycol, Phenoxyethanol, Etidronic Acid	White to yellow aqueous suspension	18 kg carton

## Promois® Protein Line by Seiwa Kasei

Promois® is the registered trademark given to the polypeptides and polypeptide derivatives being developed and produced by Seiwa Kasei. Promois® proteins are:

- produced from various protein bases using a sophisticated and tightly controlled hydrolysis procedure.
- naturally based materials which are mild to use and are environmentally friendly and exhibit a variety of beneficial effects on skin and hair.

Without adversely affecting the nature of the protein, Promois® polypeptides and their derivatives are produced by controlled hydrolysis to give molecular weights that are optimized for specific functionality.
