

LIQUID FRUITS

FRULIX TF GOIABA (GUAVA)

INCI Name: Psidium Guajava Extract

Frulix TF GOIABA (GUAVA) is obtained from the ripe fruits of guava (*Psidium guajava*), containing, besides vitamins, high levels of vitamin C, sugars and mineral salts.

Specifications

Form	Liquid
Colour	Light brown to dark brown
Odor	Characteristic of the fruit
Solubility	Water
pH	2.50 to 4.50
Total Solids	2.50% (minimum)
Total Ashes	0.10% (minimum)

Microbiological Specifications

Aerobic Plate Count	Maximum 200 UFC/g
Molds and Yeasts	Maximum 100 UFC/g
Pathogenic Micro-organisms	Absent

Composition

Contains - Guava (*Psidium guajava*) pulp extract and preservatives Methylparaben 0.20% and Propylparaben 0.025%.

Uses

Due to the high levels of vitamin C present in the fruit, Frulix TF GOIABA (GUAVA) presents antioxidant and dermoprotective activity which contribute to the improvement of the elasticity and tone of the skin. The protective and nutritive properties of the vitamins and mineral salts present in Frulix TF GOIABA (GUAVA) also mean that it is recommended for hair-care products such as shampoos and conditioners.

Instructions

Frulix TF GOIABA (GUAVA) is easily dissolved in water, even at room temperature, and can thus be added to the aqueous phase of emulsions or directly into shampoos, conditioners, gels and mousses. Frulix TF GOIABA (GUAVA) is stable at temperatures up to 90 °C, in pH conditions from 4 to 11.

Storage

Kept in closed containers, protected from sunlight and heat, the product can be stored for two years.

Packaging

05kg (11 lb) and 20 kg (44 lb) HDPE jerrycans.
