RITA HA C-1-C INCI Name Sodium Hyaluronate

DEFINITION: RITA HA C-1-C is the sodium salt of Hyaluronic Acid. RITA HA C-1-C is a biopolymer produced by fermentation.

DESCRIPTION: RITA HA C-1-C is supplied as a 1% water solution. Due to its natural skin-like properties, excellent water retentive capacity and high viscoelasticity, it is highly recommended for skin products, such as creams, sprays, emulsions, lipsticks, etc. The recommended usage for skin care products is 0.25 to 10%.

GENERAL DATA:

Physical Form @ 25°C	Water clear, viscous liquid
Odor	Characteristic
CAS Number	9067-32-7
EINECS Number	232-678-0

SPECIFICATIONS:

Sodium Hyaluronate, %	0.8 Min.
Protein, %	0.03 Max.
pH	4.2 Min.

SAFETY, STORAGE AND HANDLING

Do not allow this product to freeze or to be exposed to elevated temperatures. Do not get in eyes. Open, handle and use under well-ventilated conditions. Wash thoroughly after handling. Always wash up before eating, smoking or using toilet facilities. Container should be stored at (32° to 40°F) and protected from light. When stored under these conditions in an unopened container, the product can have a shelf life of up to 12 months. When opened it is desirable to use all of the product as soon as possible. Should an opened container need to be restored, appropriate aseptic handling procedures should be observed. The product should then be returned to proper storage temperatures for a maximum of 6 months.

The information contained herein is to our best knowledge true and accurate, but all recommendations or suggestions are made without guarantee, since the conditions of use are beyond our control. RITA CORPORATION disclaims any liability in connection with the use of these data or suggestions.
